## About the Workshop

On **Day One**, I will walk you through the museum and answer your questions about the pots. Then I will demonstrate my throwing techniques and offer other tips and techniques that may help you in your process. Your questions are welcome and are an integral part of our workshop experience ... the interaction created by the exchange of questions and answers can bring out a tremendous amount of information that may not have surfaced without your input. Day One completes with a fun BBQ at Turner Lane where we will raffle off the Shimpo Aspire wheel, T-shirts and my porcelain.

On **Day Two**, as I trim and decorate what I threw on Day One, I will explain my thought process while finishing the forms. The concepts of trimming, finishing, and decorating will be discussed and demonstrated. Questions are always encouraged.

Please visit my website for more info [www.tomturnerporcelain.com](http://www.tomturnerporcelain.com)
